Summary

Staff-level Data Scientist with a systems architecture background and 10+ years of experience driving AI/ML readiness, experimentation infrastructure, and insight-to-decision frameworks across regulated industries. Proven ability to translate complex data into strategic action through SQL, Python, and Power BI, while aligning with compliance, privacy, and stakeholder needs. Skilled in building scalable analytics platforms, optimizing model deployment pipelines, and applying AI/ML to accelerate business outcomes in cloud, fintech, and healthtech environments.

Skills

Core Competencies

- **Data Science & ML:** Python, SQL, Power BI, Microsoft Fabric, Experimentation Infrastructure, ML Readiness, Data Modeling
- **AI/ML Systems:** Scalable Model Deployment, Contextual Signal Analysis, AI-Driven Insights, Privacy-Centric Architecture
- **Analytics & Storytelling:** Insight-to-Decision Frameworks, Data Storytelling, Executive Dashboards, KPI Design
- **Compliance-Aware Science:** SOX, GDPR, TPRM, Data Governance, Risk-Aware Modeling
- **Cross-Functional Impact:** Stakeholder Alignment, Technical Translation, Program Leadership, AI/ML Enablement Strategy

Experience

Prime 8 Consulting @ Microsoft

Staff Data Scientist (Contract) | Apr 2024 – Present

- Designed SQL-driven analytics pipelines and AI-enhanced dashboards to accelerate executive decisions across 40+ compliance programs.
- Built experimentation frameworks to evaluate risk-based planning models, improving prioritization accuracy by 15%.
- Developed governance metrics adopted by 7 teams, enabling consistent insight-to-decision workflows.

Qualtrics XM

Staff Data Scientist (TPM-aligned) | Aug 2022 – Oct 2023

- Architected compliance analytics models to streamline control testing and improve audit readiness.
- Led privacy signal analysis across 8 departments, improving classification accuracy by 40% and reducing decision latency.

- Collaborated with engineering to build onboarding metrics and predictive adoption models, improving platform efficiency by 30%.
- Resolved \$3M ARR-impacting escalations using data-driven diagnostics and stakeholder modeling.
- Founded “Technical Roundtable” to align data science and program delivery, improving resolution velocity by 20%.

Microsoft

Senior Data Scientist (TPM-aligned) | Aug 2014 – Jul 2022

- Developed privacy-aware modeling frameworks aligned with SOX, GDPR, and emerging AI regulations, improving audit pass rates to 97%.
- Led Azure data science efforts for privacy workloads, achieving zero breaches and increasing customer satisfaction by 10%.
- Built AI workload readiness models to optimize infra deployment timelines and resource utilization.
- Reduced data-center overhead by 25% through predictive capacity modeling and compliance-aware scaling.

Education

Education

- Master of Business Administration (MBA), Florida State University
 - Master of Science (MS) in Computer Systems, City University of Seattle
 - Bachelor of Science (BS) in Electrical Engineering, Trine University ##
- Certifications

Certifications

- Certified Information Systems Auditor (CISA)
- Certified Data Privacy Solutions Engineer (CDPSE)
- Certification in Risk and Information Systems Control (CRISC)
- Data Science and Machine Learning Certificate (Harvard)
- Certification in Change Management (Prosci)

Professional Memberships

- Information Systems Audit and Control Association (ISACA)
- International Association of Privacy Professionals (IAPP)
